Office Activation Command by Omman

office-activation.md

## Office 2021

### Method 1: Using my command line

#### Step 1.1: Open cmd program with administrator rights.

- First, you need to open cmd in the admin mode, then run all commands below one by one.

#### Step 1.2: Get into the Office directory in cmd.

- For x86 and x64

```
cd /d %ProgramFiles(x86)%\Microsoft Office\Office16  
cd /d %ProgramFiles%\Microsoft Office\Office16
```

- If you install your Office in the ProgramFiles folder, the Office directory depends on the architecture of your OS. If you are not sure of this issue, just run both of the commands above. One of them will be not executed and an error message will be printed on the screen.

#### Step 1.3: Install Office 2021 volume license.

```
for /f %x in ('dir /b ..\root\Licenses16\ProPlus2021VL_KMS*.xrm-ms') do  
cscript ospp.vbs /inslic:"..\root\Licenses16\%x"
```

- This step is required. You can not install the KMS client product key of Office without a volume license.

## Step 1.4: Activate your Office using the KMS key.

- Make sure your device is connected to the internet, then run the following commands.

```
cscript ospp.vbs /setprt:1688
cscript ospp.vbs /unpkey:6F7TH >nul
cscript ospp.vbs /inpkey:FXYTEK-NJJ8C-GB6DW-3DYQT-6F7TH
cscript ospp.vbs /sethst:e8.us.to
cscript ospp.vbs /act
```

- If you see the error `0xC004F074`, it means that your internet connection is unstable or the server is busy. Please make sure your device is online and try the command "act" again until you succeed.

## Here is all the text you will get in the command prompt window

```
C:\Windows\system32>cd /d %ProgramFiles(x86)%\Microsoft Office\Office16
The system cannot find the path specified.
```

```
C:\Windows\system32>cd /d %ProgramFiles%\Microsoft Office\Office16
```

```
C:\Program Files\Microsoft Office\Office16>for /f %x in ('dir /b
..\root\Licenses16\ProPlus2021VL_KMS*.xrm-ms') do cscript ospp.vbs
/inslic:"..\root\Licenses16\%x"
```

=====

## Method 2: Using my pre-written batch script

---

**Step 2.1: Copy the script code below into a new text document.**

```

@echo off
title Activate Microsoft Office 2021 (ALL versions) for FREE -
office.com&cls&echo
=====
#Project: Activating Microsoft software products for FREE without additional
software&echo
=====
#Supported products:&echo - Microsoft Office Standard 2021&echo - Microsoft
Office Professional Plus 2021&echo.&echo.&(if exist "%ProgramFiles%\Microsoft
Office\Office16\ospp.vbs" cd /d "%ProgramFiles%\Microsoft Office\Office16")&
(if exist "%ProgramFiles(x86)%\Microsoft Office\Office16\ospp.vbs" cd /d
"%ProgramFiles(x86)%\Microsoft Office\Office16")&(for /f %x in ('dir /b
..\root\Licenses16\ProPlus2021VL_KMS*.xrm-ms') do cscript ospp.vbs
/inslic:"..\root\Licenses16\%x" >nul)&echo.&echo
=====

```

```

echo
=====
Sorry, your version is not supported.&echo.&goto halt
:busy
echo
=====
Sorry, the server is busy and can't respond to your request. Please try
again.&echo.
:halt
pause >nul

```

**Step 2.2: Save this text file as a cmd file. (Eg. office.cmd).**

**Step 2.3: Run the cmd file in admin mode.**

**Step 2.4: Check the activation status again.**

**Done! Your product is activated successfully now.**

## More information:

- Here is the KMS client key of Office 2021: `FXYTEK-NJJ8C-GB6DW-3DYQT-6F7TH` .

- The Office 2021 KMS license is valid for 180 days only but it can be renewed automatically so you needn't worry so much about the period.
- If you would have any questions or concerns, please leave your comments. I would be glad to explain in more details. Thank you so much for all your feedback and support!

**aechag** commented on Aug 29

that really help me, thank you very much

**Dhemitlandangan** commented on Aug 30

thank you

**SokSamBo** commented on Aug 31

Thank you, worked like a charm. #method2 for me.

**CesarCruzGH** commented on Aug 31

Método 2 funciona de lujo, gracias, hermano.

**AK-Programs** commented on Sep 1

It Works. Thanks

**Ngechuk** commented on Sep 5

Simple method and it worked. Thanks

**Magdy714** commented on Sep 6

that really helped me (Step 2), thank you very much <3

**Hoangmyaht** commented on Sep 9

It Works. Thank you very much

**SOODANS** commented on Sep 9

thank you, it worked like marvel !!

**addingsomething** commented on Sep 11

Thanks bro

**csudhakarreddy** commented on Sep 11

Thank you soooooo much bro. it worked very well.

**lazysisyphus** commented on Sep 12

Bro, i just make this account to thank you, this worked in one minute.

**divyanshr1** commented on Sep 16

thanks, it worked!

**nathannng1229** commented on Sep 17

The second method worked just fine with the script. I have already had the legit Microsoft Office LTSC Professional Plus 2021. Thanks

**hpsxrb** commented on Sep 18

Thanks

Author

Hi Users,  
Office LTSC 2024 is now available! <https://www.xda-developers.com/microsoft-releases-ltsc-2024/> Finally,  
Microsoft releases new version of Office that doesn't require a subscription.

**KhaledX0** commented last month

after 2 hour of search i found this page so i try it and it work form the first time want to thank u man for your help and keep going ❤️

**eabrahym75** commented last month

Thanks a lot, man!  
Method 2 worked for me.

**marave22** commented 3 weeks ago

Thanks

**TORANII09** commented 2 weeks ago

Is this safe??? Anyone

**stalha007** commented last week

The Software Licensing Service reported that the action requires administrator privilege.  
This shows everytime i try the above procedure, what to do?  
The connection to my KMS server failed! Trying to connect to another one... (This shows up for the 2nd method)

**JamesCampbell9** commented last week

I take a [office 2021 pro](#) genuine global key from a [shwp here](#) in cheap and their key worked perfectly

**w41k3rsjv** commented last week

thank you my LEGEND

**kadekedwin** commented 5 days ago

this word smoothly. But what is the code? and why does it work?

**lekhrajprasad77** commented 3 days ago

Worked!

**AaronEich** commented 3 days ago

I got a latest version of [office 2024 pro plus](#) original Microsoft key from a online swp and worked without any problem If you need [see more](#)

thank you broski maja agaya

**Abdul-Firoz-Khan** commented 2 days ago

Worked! 🙏

**filipvladimirovick** commented 2 minutes ago

You want to opt for a Retail key rather than an OEM one. An OEM one should be no more than a few bucks because they always get deactivated and you have to buy a new one. Anywhere selling OEM for \$10+ is a scam. Stay away from them. Retail is the best though a costs a bit more but worth it because it never gets deactivated. It's a legitimate consumer copy. I always use <https://hypestkey.com/product/office-2021-professional-plus/> + <https://hypestkey.com/product/windows-11-pro/> to buy my keys. They get sent to your email instantly and they're retail keys.
