### How to translate the game with Rei Patcher

By Pokums

Currently, the game does not support English language and probably not going to be translated due to involvement of Chinese word games. This is a guide on how to install an auto translation patch to translate it to English or any other desired language that is supported by Google Translate.

## How to install

1. Follow [this \[github.com\]](#) link and download XUnity.AutoTranslator-ReiPatcher-[version number].zip of the latest release.

Assets	
⊕ TMP_Font_AssetBundles.zip	57.4 MB
⊕ XUnity.AutoTranslator-BepIn-5x-4.14.0.zip	409 KB
⊕ XUnity.AutoTranslator-Developer-4.14.0.zip	360 KB
⊕ XUnity.AutoTranslator-IPA-4.14.0.zip	696 KB
⊕ XUnity.AutoTranslator-ReiPatcher-4.14.0.zip	873 KB
⊕ XUnity.AutoTranslator-UnityInjector-4.14.0.zip	452 KB
⊕ XUnity.ResourceRedirector-BepIn-5x-1.1.3.zip	83.3 KB
ⓘ Source code (zip)	
ⓘ Source code (tar.gz)	

2. After unpacking the archive place

SetupReiPatcherAndAutoTranslator.exe into the game root folder (ex: `\Steam\steamapps\common\Swaying Girl`).

3. Run SetupReiPatcherAndAutoTranslator.exe and close command prompt after installation.
4. Launch SwayingGirl (Patch and Run) to generate necessary folders and close the game.

Steam > steamapps > common > Swaying Girl				
Name	Date modified	Type	Size	
AutoTranslator	09-Mar-21 6:05 PM	File folder		
MonoBleedingEdge	09-Mar-21 5:39 PM	File folder		
ReiPatcher	09-Mar-21 6:05 PM	File folder		
SwayingGirl_Data	09-Mar-21 6:03 PM	File folder		
SetupReiPatcherAndAutoTranslator.exe	01-Feb-21 11:40 PM	Application	2,208 KB	
steam_appid.txt	09-Mar-21 5:39 PM	Text Document	1 KB	
SwayingGirl (Patch and Run)	09-Mar-21 6:05 PM	Shortcut	2 KB	
SwayingGirl.exe	09-Mar-21 5:39 PM	Application	625 KB	
UnityPlayer.dll	09-Mar-21 5:39 PM	Application exten...	19,593 KB	

- Go to newly created `\Swaying Girl\AutoTranslator` folder and open `Config.ini` with text editor.
- There change what comes after `Language=` to language you want to translate to (like `en` or `ru`) and what comes after `FromLanguage=` to `zh-CN` or `auto`.

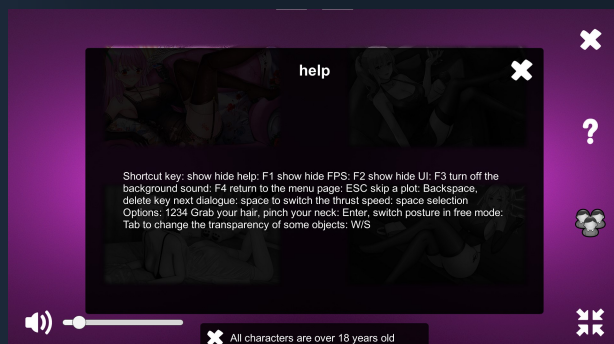

- Save and quit the config file.
- Delete `_AutoGeneratedTranslations.txt` (previously auto-generated translations) from `\Swaying Girl\AutoTranslator\Translation\en\Text`.

steamapps > common > Swaying Girl > AutoTranslator > Translation > en > Text				
Name	Date modified	Type	Size	
_AutoGeneratedTranslations.txt	09-Mar-21 6:08 PM	Text Document	3 KB	
_Preprocessors.txt	09-Mar-21 6:05 PM	Text Document	1 KB	
_Substitutions.txt	09-Mar-21 6:05 PM	Text Document	1 KB	

- Now the game is patched, in-game text should automatically translate from Chinese (some texts take a little bit of time to be translated if they weren't seen before) and you can launch it directly from Steam.

## Some example screenshots

Controls:

In-game dialogue:

## Additional info

If you don't know your country's language code, you can look it up [here](#). [sites.google.com]

Special thanks to [bbepis](#) [github.com] and github contributors for this patch!
